1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

Customer of Carolina Water Services Inc

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

Water is certainly one of our most valuable resources, and clean water important to life and health.

However, though Carolina Water Service Inc (AKA Utilities Inc) is already charging prices that are higher than half of the cities listed in the circle of blue report - The price of Water: A Comparison of Water Rates, Usage in 30 US Cities (<http://www.circleofblue.org/waternews/2010/world/the-price-of-water-a-comparison-of-water-rates-usage-in-30-u-s-cities/>)

Normalizing my last water bill for 100 gallons a day I am paying \$59.75 under the current plan, more than Las Vegas, Denver, San Jose, Milwaukee. I am currently even paying more than twice as high as Fresno, and almost twice as high as Chicago. If I use the new proposed value (and keeping the Usage charge of the the waste water the same as there is no indication of what the higher level would be) my bill for the same water usage would be \$98.82. That would put me in the 4th highest water price in the study listed above. While I would like to be compared with cities like Seattle, Atlanta, and San Diego in many ways, the cost of water is not one.

Finally, I would agree with a commodity charge increase - after all that means that those that use more will pay more, but such a large increase in the base facilities charges I absolutely cannot support.

3. Do you wish to make an appearance at a hearing in this proceeding , if scheduled, and offer sworn testimony? *
